## **DETAILED ACTION**

### ***Restriction Requirement***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to an apparatus, classified in class 118, subclass 1+.
- II. Claims 5-20, drawn to a method, classified in class 438, subclass 780.

2. The inventions are distinct, each from the other because:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the method can be used with a materially different apparatus, such as one which does not have the circumferential groove as required by the method claims.

3. A phone call was made to Mark R. Schroeder on November 17, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any
